Provider Use Cases

Vision:

A web-based tutoring platform that connects students with tutors by allowing tutors to host sessions and students to book them.

Problem:

Students struggle to find organized, accessible academic support.

Solution:

A centralized system for booking, hosting, reviewing, and managing tutoring sessions.

Actors:

- Student
- Tutor

Main Functionalities:

Student

- Register/Login
- Browse tutors
- Book sessions
- Leave reviews

Tutor

- Register/Login
- Create/Edit/Delete sessions
- View bookings
- Leave reviews
